

Azadeh Hakkak

Junior Web Developer

MY BACKGROUND

After being a Makeup Artist for 16 years and all the great things that I've learned I got to a point that it was time for a new challenge. So I decided to take a brave decision and become a software engineer as it involves both creativity and logic. During my course I learned that nothing is impossible and we can achieve whatever we want with hard work and a curious mind. Life is too short to do anything that's not challenging.

MY JOB SKILLS

- JavaScript
