

Azadeh Hakkak

Junior Web Developer

MY BACKGROUND

I am a Software Engineer with a background in makeup artistry. I always enjoyed the creativity of makeup artistry but after 16 years I wanted to challenge myself and learn something new. So I did a lot of research and at the end I decided to make a brave decision and learn software engineering, and change my career. During my course I learned that nothing is impossible and we can achieve whatever we want. all we need is a curious mind and a positive attitude!

SKILLS

- JavaScript
- HTML/CSS
- Ruby on Rails/Ruby
